

Currency Regulation

Except for card tariffs, all tariffs shall be calculated in AZN, USD or EUR, depending on the transaction currency, and the exchange rate determined by PASHA Bank as of the date of the transaction shall apply. For transactions carried out in other currencies (other than AZN, USD and EUR), the service fee shall be calculated in the EUR equivalent and charged in accordance with the procedure specified above.

Where a grace period is granted for the payment of service fees related to foreign currency transactions, and the service fee is charged in a currency different from the transaction currency, the exchange rate determined by PASHA Bank as of the date of the transaction shall apply at the time of payment.

If, during a transfer to an account, the currency of the credited funds differs from the currency of the account specified in the payment order, the amount shall be calculated in accordance with the Bank's exchange rate applicable on the date the transaction is executed and the tariffs in force.
