## REPORT ON REVIEW OF INTERIM CONDENSED FINANCIAL STATEMENTS

**To the Shareholders and Board of Directors of OJSC PASHA Bank -**

### **Introduction**

We have reviewed the accompanying interim condensed financial statements of OJSC Pasha Bank, comprising the interim statement of financial position as at 30 June 2012 and the related interim statements of income, comprehensive income, changes in equity and cash flows for the six month period then ended and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Financial Reporting Standard IAS 34, "Interim Financial Reporting" ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

### **Scope of Review**

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34.

## 1. Principal activities

OJSC PASHA Bank (the “Bank”) was formed on 18 June 2007 as an open joint stock company under the laws of the Republic of Azerbaijan. The Bank operates under a banking licence issued by the Central Bank of the Republic of Azerbaijan (“CBA”) on 28 November 2007.

The Bank accepts deposits from the public and extends credit, transfers payments, exchanges currencies and provides other banking services to its commercial and private customers.

The Bank has two service points in Azerbaijan as of 30 June 2012 (31 December 2011: two) and one representative office in the Republic of Georgia.

The Bank’s registered legal address is 15 Yusif Mammadaliyev Street, Baku, AZ1005, Azerbaijan.

As of 30 June 2012 and 31 December 2011, the following shareholders owned the outstanding shares of the Bank:

<b>Shareholder</b>	<b>30 June 2012</b> <i>(%)</i>	<b>31 December 2011</b> <i>(%)</i>
Pasha Holding Ltd.	60	60
Ador Ltd.	30	30
Mr. Arif Pashayev	10	10
<b>Total</b>	<b>100</b>	<b>100</b>

The Bank is ultimately controlled by Mr. Arif Pashayev.

## 2. Basis of preparation

### General

These interim condensed financial statements for the six months ended 30 June 2012, have been prepared in accordance with International Accounting Standard (“IAS”) 34 “Interim Financial Reporting”.

The Bank is required to maintain their records and prepare their financial statements for regulatory purposes in Azerbaijani Manat in accordance with International Financial Reporting Standards (“IFRS”). These interim condensed financial statements are prepared under the historical cost convention except for the measurement at fair value of investment securities available for sale and trading securities.

These interim condensed financial statements are presented in thousands of Azerbaijani Manats (“AZN”) unless otherwise indicated. Transactions in currencies other than the AZN are treated as transactions in foreign currencies.

The interim condensed financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Bank’s annual financial statements as at 31 December 2011.

(Figures in Tables are in thousands of Azerbaijani Manats)

### 3. Changes in accounting policies

The accounting policies adopted in the preparation of the interim condensed financial statements are consistent with those followed in the preparation of the Bank's annual financial statements for the year ended 31 December 2011, except for the adoption of new Standards and Interpretations as of 1 January 2012, noted below:

#### Amendments to IFRS 7 "Financial Instruments: Disclosures"

The Amendments were issued in October 2010 and are effective for annual periods beginning on or after 1 July 2011. The amendment requires additional disclosure about financial assets that have been transferred but not derecognised to enable the user of the Bank's financial statements to understand the relationship with those assets that have not been derecognised and their associated liabilities. In addition, the amendment requires disclosures about continuing involvement in derecognised assets to enable the user to evaluate the nature of, and risks associated with, the entity's continuing involvement in those derecognised assets. The amendment affects disclosure only and has no impact on the Bank's financial position or performance.

#### Amendments to IAS 12 "Income Taxes" – Deferred tax: Recovery of underlying assets

In December 2010 the IASB issued amendments to IAS 12 effective for annual periods beginning on or after 1 January 2012. The amendment clarified the determination of deferred tax on investment property measured at fair value. The amendment introduces a rebuttable presumption that deferred tax on investment property measured using the fair value model in IAS 40 should be determined on the basis that its carrying amount will be recovered through sale. Furthermore, it introduces the requirement that deferred tax on non-depreciable assets that are measured using the revaluation model in IAS 16 always be measured on a sale basis of the asset. These amendments had no impact on the Bank's financial position.

### 4. Cash and cash equivalents

Cash and cash equivalents comprise:

## 19. Equity

The share capital of the Bank was contributed by the shareholders in AZN and they are entitled to dividends and any capital distribution in AZN. On 5 December 2011, the shareholders of the Bank declared dividends of AZN 982 thousands from the 2011 net profit of the Bank and this amount was accrued accordingly as of 31 December 2011. The dividends were paid to the shareholders of the Bank on 1 May 2012.

As of 31 December 2011, amount reserved for increase in share capital amounted to AZN 2,645 thousands. During prior year the Tax Authorities applied 10% dividend tax to the amounts of capitalized profit (under the assumption that the profit is initially distributed as a dividend and subsequently capitalized) for all commercial banks in the Republic of Azerbaijan. The Bank has deducted and paid to tax authorities 10% of dividend tax for 2009 and 2010 in the amounts of AZN 1,541 thousands and AZN 1,104 thousands, respectively. However, during 2011 the Constitutional Court of the Republic of Azerbaijan has found application of this dividend tax unlawful and cancelled it. Based on this, the Bank prepared and sent revised withholding tax declaration and recognized this amount as tax receivable (which is being used for settlement of tax obligations of the Bank) with a corresponding credit to amount reserved for increase in share capital. The shareholders of bank made decision to use these amounts for share capital increase together with the 90% portion of current year statutory profit.

In 2011 share capital was increased by AZN 8,068 thousands from AZN 115,407 thousands to AZN 123,475 thousands through capitalization of the profit earned for the year ended 31 December 2010.

On 1 February 2012, the shareholders decided to increase the share capital by AZN 10,750 thousands through capitalization of the profit earned for the year ended 31 December 2011 and by AZN 2,644 thousands amount reserved for increase in share capital. As a result the share capital was increased from AZN 123,475 thousands to AZN 136,869 thousands.

On 17 April 2012, the shareholders of the bank have decided to increase share capital of the bank by additional cash contribution amounting of AZN 20,131 thousands. Increase of share capital has been finalized on 29 June 2012. The increase was carried out by converting 10,000 shares with a par value of AZN 13,686.94 into an equal number of shares with a par value of AZN 15,700.00.

As of 30 June 2012, the Bank authorized, issued and fully paid capital amounted to AZN 157,000 thousands (31 December 2011–AZN 123,475 thousands) and comprised 10,000 ordinary shares with a par value of AZN 15,700.00 per share (31 December 2011–AZN 12,347.47). Each share entitles one vote to the shareholder.

## 20. Commitments and contingencies

### Operating environment

As an emerging market, Azerbaijan does not possess a well-developed business and regulatory infrastructure that would generally exist in a more mature market economy. However, there have been a number of developments that positively affect the overall investment climate of the country.

While operations in Azerbaijan may involve risks that are not typically associated with those in developed markets (including the risk that the Azerbaijani Manat is not freely convertible outside of the country and undeveloped debt and equity markets), over the last few years the Azerbaijani government has made progress in implementing the reforms necessary to create banking, judicial, taxation and regulatory systems.

The existing tendency aimed at the overall improvement of the business environment is expected to persist. The future stability of the Azerbaijani economy is largely dependent upon these reforms and developments and the effectiveness of economic, financial and monetary measures undertaken by the government. However, the Azerbaijan economy is vulnerable to market downturns and economic slowdowns elsewhere in the world. The global financial crisis resulted in capital markets instability, deterioration of liquidity in the banking sector, and tighter credit conditions within Azerbaijan. The Azerbaijan Government has introduced a range of stabilization measures aimed at ensuring solvency and providing liquidity and supporting refinancing of foreign debt for Azerbaijan banks and companies.

While management believes it is taking appropriate measures to support the sustainability of the Bank's business in the current circumstances, unexpected further deterioration in the areas described above could negatively affect the Bank's results and financial position in a manner not currently determinable.

### Legal

In the ordinary course of business, the Bank is subject to legal actions and complaints. Management believes that the ultimate liability, if any, arising from such actions or complaints will not have a material adverse effect on the financial condition or the results of future operations of the Bank.

### Taxation

Azerbaijani tax, currency and customs legislation is subject to varying interpretations, and changes, which can occur frequently. Management's interpretation of such legislation as applied to the transactions and activity of the Bank may be challenged by the relevant authorities. Recent events within the Azerbaijan suggest that the tax authorities are taking a more assertive position in its interpretation of the legislation and assessments and, as a result, it is possible that transactions and activities that have not been challenged in the past may be challenged. As such, significant additional taxes, penalties and interest may be assessed. Fiscal periods remain open to review by the authorities in respect of taxes for three calendar years proceeding the year of review.

Management believes that its interpretation of the relevant legislation as of 30 June 2012 is appropriate and that the Bank's tax, currency and customs positions will be sustained.

### Insurance

The Bank has not currently obtained insurance coverage related to liabilities arising from errors or omissions. Liability insurance is generally not available in Azerbaijan at present.

### Financial commitments and contingencies

The Bank provides guarantees and letters of credit to customers with primary purpose of ensuring that funds are available to a customer as required. Guarantees and standby letters of credit represent irrevocable assurances that the Bank will make payments in the event that a customer cannot meet its obligations to third parties. Documentary and commercial letters of credit, which are written undertakings by the Bank on behalf of a customer authorizing a third party to draw drafts on the Bank up to a stipulated amount under specific terms and conditions, are collateralized by the underlying shipments of goods, to which they relate, or cash deposits and, therefore, carry less risk than a direct borrowing.

## 24. Fair values of financial instruments

The Bank uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy:

<i>At 30 June 2012 (unaudited)</i>	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>

### *Fixed rate financial instruments*

The fair value of fixed rate financial assets and liabilities carried at amortised cost are estimated by comparing market interest rates when they were first recognized with current market rates offered for similar financial instruments. The estimated fair value of fixed interest bearing deposits is based on discounted cash flows using prevailing money-market interest rates for debts with similar credit risk and maturity. For quoted debt issued the fair values are calculated based on quoted market prices. For those notes issued where quoted market prices are not available, a discounted cash flow model is used based on a current interest rate yield curve appropriate for the remaining term to maturity.

### *Fair value of financial assets and liabilities not carried at fair value*

Set out below is a comparison by class of the carrying amounts and fair values of the Bank's financial instruments that are not carried at fair value in the statement of financial position. The table does not include the fair values of non-financial assets and non-financial liabilities.

*Assets for which fair value approximates carrying value*

For financial assets and financial liabilities that are liquid or having a short term maturity (less than three months) it is assumed that the carrying amounts approximate to their fair value. This assumption is also applied to demand deposits, without a specific maturity and variable rate financial instruments.

*Fixed and variable rate financial instruments*

For quoted debt instruments the fair values are determined based on quoted market prices. The fair values of unquoted debt instruments are estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities.

## 25. Related party disclosures

In accordance with IAS 24 "Related Party Disclosures", parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form.

Related parties may enter into transactions which unrelated parties might not, and transactions between related parties may not be effected on the same terms, conditions and amounts as transactions between unrelated parties.

## 26. Capital adequacy

The Bank maintains an actively managed capital base to cover risks inherent in the business. The adequacy of the Bank's capital is monitored using, among other measures, the ratios established by the CBA in supervising the Bank.

During the past year, the Bank had complied in full with all its externally imposed capital requirements.

The primary objectives of the Bank's capital management are to ensure that the Bank complies with externally imposed capital requirements and that the Bank maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholders' value.

The Bank manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Bank may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes were made in the objectives, policies and processes from the previous years.

### *CBA capital adequacy ratio*

The CBA requires banks to maintain a minimum capital adequacy ratio of 12% of risk-weighted assets. As of 30 June 2012 and 31 December 2011 the Bank's capital adequacy ratio on this basis was as follows:

	<u>30 June 2012</u> <i>(unaudited)</i>	<u>31 December 2011</u>
Tier 1 capital	165,808	131,301
Tier 2 capital	12,508	15,944
Less: Deductions from capital	(2,157)	(1,841)
<b>Total regulatory capital</b>	<b>176,159</b>	<b>145,404</b>
<b>Risk-weighted assets</b>	<b>487,126</b>	<b>337,840</b>
